COMPUTER NEWSLETTER

DEAR READERS,

OUR PRODUCTS DIVISION HAS DESIGNED A NEW DEVICE THAT WILL SOLVE ALL THE FRUSTRATIONS OF SAVING AND LOADING YOUR VALUABLE PROGRAMS.

THEY BEGAN BY RESEARCHING THE PROBLEMS THAT MANY OF US ARE NOW EXPERIENCING. THAT IS, THE INCONVENIENCE OF HAVING TO CONTINUOUSLY KEEP SWITCHING CONNECTOR CABLES FROM MIKE TO EAR AND EAR TO MIKE AND OUT TO IN AND IN TO OUT...

OUR FIRST OBJECTIVE THEN, WAS TO OVERCOME THIS MAJOR DIFFICULTY. FURTHERMORE, IT WAS ALSO NECESSARY TO ELIMINATE ALL EXTRANEOUS NOISE THAT COULD LEAD TO LOADING ERROR. REQUIREMENTS WERE SIMPLE. GET IT WORKING BEFORE VOL.I NO.2 GOES TO PRINT. TWO DAYS LATER I WAS PRESENTED WITH A PROTOTYPE AND HAVE BEEN SUCCESSFULLY USING IT FOR THREE WEEKS.

IF YOU ARE INTERESTED IN MAKING THE BEST INVESTMENT POSSIBLE FOR YOUR SINCLAIR COMPUTER FILL OUT THE CONVENIENT ORDER FORM ON PAGE 9 OF THIS NEWSLETTER.

YOURS TRULY,

JACQUELINE LE BELL

THANK YOU PHIL. I AM ALWAYS IMPRESSED WITH SHORT PROGRAMS OF GOOD QUALITY. I CAN SEE THIS ONE IMPROVING OUR CHILDRENS SPELLING ABILITY, READING SPEED AND COMPREHENSION. THE GAME ASPECT MAKES IT FUN TO WORK WITH.

HOPE YOU CAN SEND US MORE.

Jacqueline Le Bel
Basic Computer Newsletter
3705 Biscayne Blvd.

Dear Jacqueline:

In reply to your note regarding my note requesting a sample copy of "BASIC" and subscription information.

I would like to point out that I did not order a subscription. My note simply requested INFORMATION.

However, after I received your correspondence, I received a copy of VOL.I NO.1. Which I assume came as per the subcription you inadvertently started.

However, since I did like it, I am now subscribing. So, enclosed herewith is my order and check.

Also, I noticed your offer for an adapter kit to use the Radio Shack paper with the 2040. I noticed on the correspondence you sent that the print quality was outstanding.

I was wondering what kind of paper you were using. Since your newsletter happened to mention your using the Radio Shack paper, I feel that due to its outstanding print quality, and easier availability, that it would be a good idea to switch.

I am also including my order for the adapter kit. However, I would like to check with you on one thing. As you know Timex is very strong on their warning about using any other paper.

I assume that you have checked into this and found that the Radio Shack paper would be perfectly OK, for use with the 2040 printer. If so, then please go ahead and process my order for the adapter. If not, then please cancel and refund.

Also, I notice you use the printer to make mailing labels. I do this also, but I have not found a clean way to dispense the glue. what kind of glue do you use and what kind of applicator. Please advise. Thank you!

Very truly yours,

HERMAN H. KRAUT

DEAR MR. KRAUT,

OUR TEST RESULTS HAVE SHOWN THAT THE CHARACTERISTICS OF BOTH PAPERS ARE COMPATIBLE WITH THE 2040 PRINTER.
THE WARNINGS YOU ARE REFERRING TO WERE FOR THE SILVER PAPER USED ON THE ORIGINAL ZX PRINTER.

YOUR ORDER HAS BEEN PROCESSED AND YOU SHOULD NOW BE ENJOYING A QUALITY PRINTOUT.

WE HAVE ALSO ENCLOSED A SAMPLE OF THE GLUE THAT WE USE. IT IS DENISON GLUE STICK AND CAN BE FOUND AT YOUR LOCAL SUPERMARKET OR STATIONARY STORE.

REMEMBER THAT WE WISH TO GROW IN A MANNER AS TO NOT NEGLECT THE MANY 1000 AND 1500 HACKERS THAT ARE ALSO LOOKING FOR QUALITY SOFTWARE.

THANK YOU FOR UNDERSTANDING.

Dear Sinclair Owner,

Welcome to the exciting world of the Basic Computer Newsletter. A newsletter designed especially for you, the Sinclair Computer owner.

Each month the Basic Computer Newsletter will offer a large assortment of new and useful programs that can be put into use right away, either in your home or office. Basic Computer Newsletter will fully outline and explain each program in detail. The programs are written in such a fashion to permit enhancement or modification for maximum usefulness and profitability.

All programs in the Basic Computer Newsletter are written for easy entry into your Sinclair Computer. The variety of contents in each program are structured to satisfy all your needs.

In addition, there will be longer and more sophisticated programs, most of which will be offered on cassettes at special subscriber prices; 60% below those offered at retail locations.

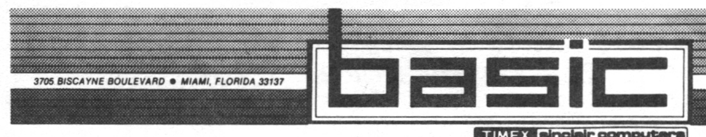

Most importantly, you, the reader, have the ability to share your comments, enhancements and programs with other readers as a member of our Software Forum. Each month we will publish comments, enhancements and tested programs sent to us from our readers.
